25X1A 1. Reference memoranda pertain to the funding of the DD/R FY 1963 research and development programs in OEL and ORD. Reference b. confirms that [REDACTED] was approved for allocation to the DD/R and that surplus OSA funds could be reprogrammed by the DD/R for use of OEL and ORD.

25X1A 2. We anticipate identifying about [REDACTED] of surplus OSA funds; however, the entire amount cannot, with certainty, be identified until some time in June. To permit a partial execution of the remaining balance of their FY 1963 programs, we propose to make [REDACTED] of the anticipated surplus immediately available to OEL and ORD.

3. Will you please, therefore, have the necessary paperwork accomplished to reduce the OSA allotment by [REDACTED] and increase OEL and ORD allotments by [REDACTED] each.
